Be safe and smart online

SMART INTERNET USER

MOOC-S

In Slovenia, a country of only two million people, Arnes managed to get over 4,500 people to participate in the country's **first massive open online course** on internet **safety** and **security** (MOOC-S).

- **6 editions since 2014**

- **4,500 participants**

- **3 weeks of various activities**

- **Practical workshop with real-life examples from Slovenian schools**

65% of those who took part in the MOOC-S passed it successfully, gaining digital skills relating to internet security and the safe use of online technologies in the process.

Participants:

- Teachers
- Students
- The general public

Using the DigComp 2.0 framework as a basis, MOOC-S focuses primarily on the following safety aspects:

- **Protecting devices**
- **Protecting personal data and privacy**
- **Protecting health and well-being**
- **Protecting the environment**

MOOC-S helps educating the educators.

MOOC-S uses:

- Moodle open Learning Management System
- Mozilla Open Badges

Organised by ARNES, including SI-CERT and Safe on the Internet project with cooperation of other stakeholders:

- The Ministry of Education, Science and Sport,
- the National Education Institute Slovenia,
- SAFE.SI,
- the Faculty of Education,
- the Center for Digital Addiction Help and Treatment – LOGOUT,
- and the Information Commissioner of the Republic of Slovenia.

ARNES is a national education and research network.
